

Class-I
Subject- Maths
Chapter-5 Measurement

Points to remember -

- 1. Measurement means an act or a process of measuring something.**
- 2. The words tall ,long and short tell us about the length of something.**
- 3. Long ago, people used parts of their body to measure things. They used Cubit, Handspan ,Fingers and Pace (Footspan) .**
- 4. The words heavy and light tell us about the weight of someone or something.**
- 5. Capacity is the amount of liquid a container can hold. The words more and less tell us about the capacity.**
