

Multiplication

- 1) Multiplication is **repeated addition**.
- 2) The number which is to be multiplied or repeated is called **multiplicand**.
- 3) The number which expresses how often the multiplicand is repeated is called the **multiplier**.
- 4) The answer which you obtained after multiplication is called **product**.

Formula :- Multiplier x Multiplicand = Product

Eg:- $2 + 2 + 2 + 2 + 2 + 2 = 6 \times 2 = 12$

- 5) The multiplier and multiplicand are also called **factors**.

Properties of Multiplication

1. Changing the order of factors does not change the product.

Example: $12 \times 7 = 7 \times 12 = 84$

2. The product of any number and 1 is the number itself.

Example: $345 \times 1 = 1 \times 345 = 345$

3. Changing the grouping of factors does not change the product.

Example: $2 \times (4 \times 9) = 2 \times 36 = 72$; $(2 \times 4) \times 9 = 8 \times 9 = 72$

$\therefore 2 \times (4 \times 9) = (2 \times 4) \times 9 = 72.$

4. The product of any number and 0 is 0.

Example: $79014 \times 0 = 0$

Quick Assessment

Fill in the blanks.

1. $80 \times 10000 = \underline{\hspace{2cm}}$

2. $465 \times 100000 = \underline{\hspace{2cm}}$

3. $72 \times 20000 = \underline{\hspace{2cm}}$

4. $24 \times 4000 = \underline{\hspace{2cm}}$

5. $200 \times 30000 = \underline{\hspace{2cm}}$

6. $1500 \times 5000 = \underline{\hspace{2cm}}$

7. $\underline{\hspace{2cm}} \times 90000 = 27000000$

8. $5000 \times \underline{\hspace{2cm}} = 550000000$

This is homework. Do it in book only

Self Practice 5B

1. Write the product.

(a) 645×10

(b) 8872×100

(c) 305×1000

(d) 982×10000

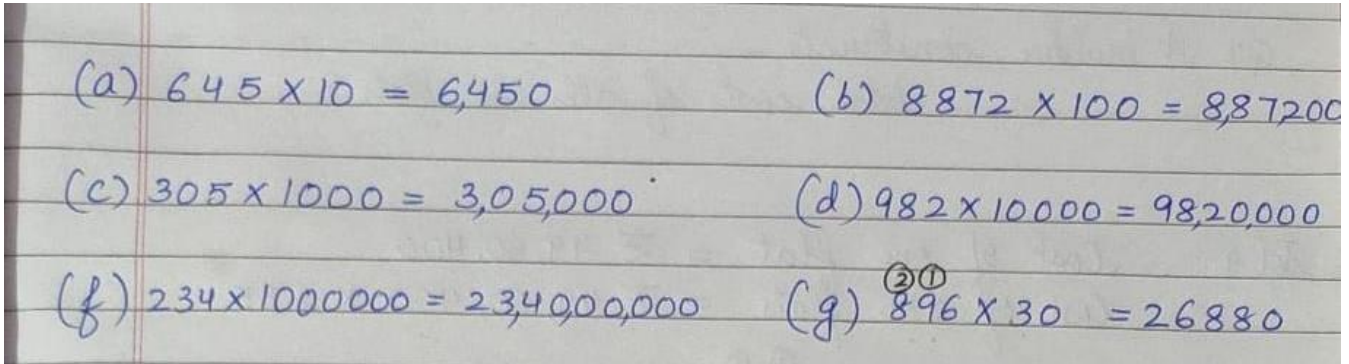

(e) 549×100000

(f) 234×1000000

(g) 896×30

(h) 732×400

Solution 1:-

In Q1. (e) , (h) are homework.

2. Multiply:

(a) 80125×74

(b) 79725×846

(c) 496832×791

(d) 7850×6925

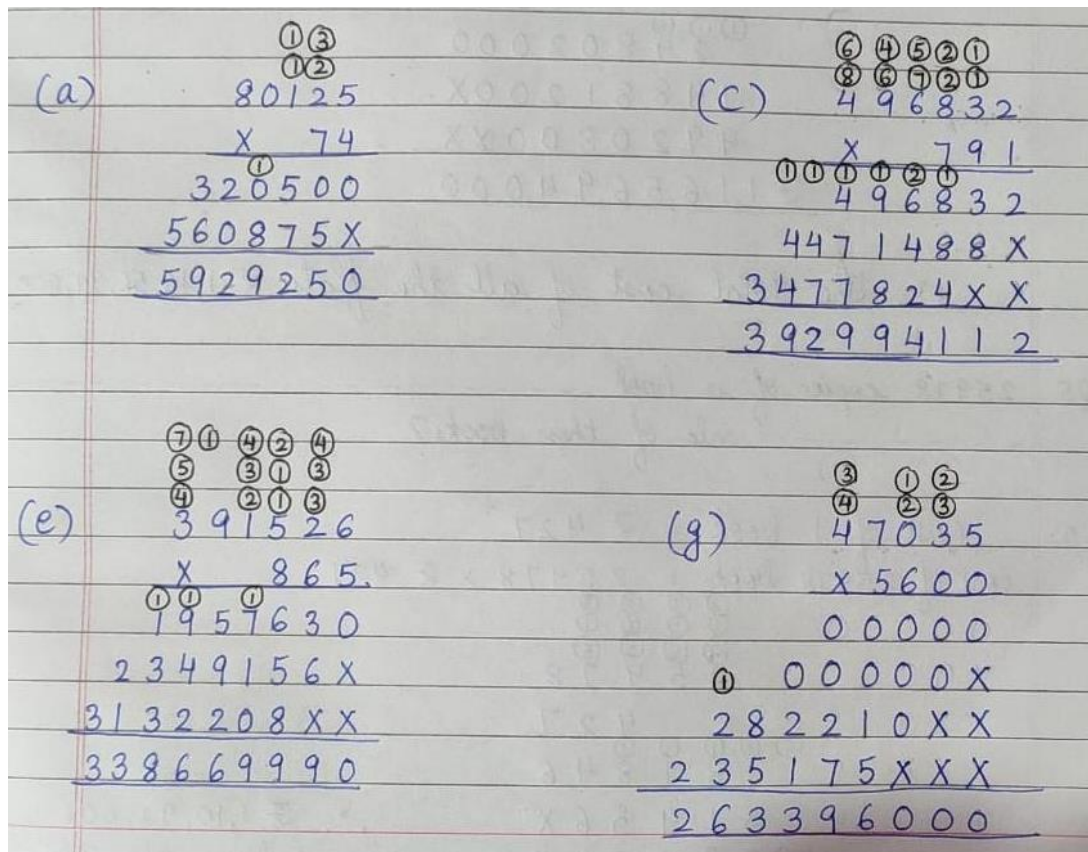

(e) 391526×865

(f) 65839×6007

(g) 47035×5600

(h) 70095×950

Solution 2:-

In Q2. (b) , (d) , (f) , (h) are homework.

3. In a relief fund for the victims of a cyclone-hit state, each family of a city donated ₹ 250. If the number of families in the city was 124827, find the total amount donated by them for the fund.

Solution 3:- This question is homework .

4. A builder constructs 235 flats in a society. If each flat costs ₹ 49,60,400, what is the total cost of all the flats?

Solution 4:-

Cost of one flat = ₹ 49,60,400
 Cost of 235 flats = ₹ 49,60,400 × 235

$$\begin{array}{r}
 \textcircled{1} \textcircled{1} \\
 \textcircled{2} \textcircled{1} \quad \textcircled{1} \\
 \textcircled{4} \textcircled{3} \quad \textcircled{2} \\
 \text{₹ } 4960400 \\
 \times \quad 235 \\
 \hline
 \textcircled{1} \textcircled{0} \textcircled{0} \\
 24802000 \\
 14881200X \\
 9920800XX \\
 \hline
 \text{₹ } 1,16,56,94,000
 \end{array}$$

∴ The total cost of all the flats ₹ 1,16,56,94,000.

5. 25978 copies of a book were sold during a year. If each book costs ₹ 427, how much is earned from the sale of these books?

Solution 5:-

Sol 5:- Cost of 1 book = ₹ 427
 Cost of 25978 books = 25978 × ₹ 427

$$\begin{array}{r}
 \textcircled{2} \textcircled{3} \textcircled{3} \textcircled{3} \\
 \textcircled{1} \textcircled{1} \textcircled{1} \textcircled{1} \\
 \textcircled{4} \textcircled{6} \textcircled{5} \textcircled{5} \\
 25978 \\
 \times \quad 427 \\
 \hline
 \textcircled{1} \textcircled{0} \textcircled{0} \textcircled{0} \textcircled{0} \\
 181846 \\
 51956X \\
 103912XX \\
 \hline
 11092606
 \end{array}$$

∴ ₹ 1,10,92,606 is earned from the sale of these books.
