

Self Practice 9C (Pg. No. 117)

1. Add

$$\begin{array}{r} \text{a)} \quad \textcircled{1} \\ 85.63 \\ + 43.76 \\ \hline 129.39 \end{array}$$

$$\begin{array}{r} \text{d)} \quad \textcircled{1} \quad \textcircled{1} \quad \textcircled{2} \\ 175.800 \\ + 200.030 \\ + 412.358 \\ \hline 18.900 \end{array}$$

$$\begin{array}{r} \text{e)} \quad \textcircled{1} \quad \textcircled{1} \quad \textcircled{2} \quad \textcircled{2} \\ 74.237 \\ 12.125 \\ + 37.489 \\ 62.675 \\ \hline 186.526 \end{array}$$

$$\hline 807.088$$

$$\begin{array}{r} \text{g)} \\ 0.525 \\ + \textcircled{1} 8.010 \\ + 125.300 \\ \hline 133.835 \end{array}$$

$$\hline 133.835$$

HW  $\Rightarrow$  1  $\rightarrow$  b, c, f, h

2 Find :

$$\begin{array}{r} \phantom{0} \overset{15}{8} \phantom{0} \overset{9}{2} \phantom{0} \overset{12}{3} \phantom{0} \overset{10}{0} \\ - \phantom{0} \phantom{0} \phantom{0} \phantom{0} \phantom{0} \phantom{0} \\ \hline \phantom{0} \phantom{0} \phantom{0} \phantom{0} \phantom{0} \phantom{0} \end{array}$$

$$\underline{08.645}$$

Ans = 8.645

$$\begin{array}{r} \phantom{0} \overset{7}{2} \phantom{0} \overset{12}{7} \phantom{0} \overset{8}{8} \phantom{0} \overset{3}{3} \\ - \phantom{0} \phantom{0} \phantom{0} \phantom{0} \phantom{0} \phantom{0} \\ \hline \phantom{0} \phantom{0} \phantom{0} \phantom{0} \phantom{0} \phantom{0} \end{array}$$

$$\underline{13.574}$$

Ans = 13.574

4. Neena needs 13.25 cm of a ribbon to wrap a gift and 12.9 cm of the same ribbon to the flowers. How much ribbon does she need in all for both the tasks?

Solution Ribbon needed to wrap a gift = 13.25 cm  
Ribbon needed to the flowers = 12.9 cm

$$\begin{aligned} \therefore \text{Ribbon needed for both the task} &= 13.25 \text{ cm} + 12.9 \text{ cm} \\ &= 26.15 \text{ cm} \end{aligned}$$

Ans. Neena needs 26.15 cm of ribbon for both the task.

5. At a dairy, the milkman prepares 25 L of lassi. If by the end of the day, the milkman is able to sell 13.907 L of lassi, find out the amount of lassi left at the dairy.

Solution  $\rightarrow$  Total lassi prepared by milkman = 25 L  
Lassi sold at the end of the day = 13.907 L

$$\begin{aligned} \therefore \text{Amount of lassi left at the dairy} &= \\ &= 25 \text{ L} - 13.907 \text{ L} \\ &= 11.093 \text{ L} \end{aligned}$$

$$\begin{array}{r} 49910 \\ 25.000 \text{ L} \\ - 13.907 \text{ L} \\ \hline 11.093 \text{ L} \end{array}$$

Ans  $\rightarrow$  11.093 L of lassi was left at the dairy.

**Q 6 IS OMITTED**

**Q7 IS H.W.**
