Lesson 2
The coconut tree

A. Write T for True or F for False:-

1. A coconut tree has many branches.   { False }
2. Satish uses an axe to cut the coconuts.   { False }
3. The owner of the coconut trees counts the coconuts.   { True }

B. Answer these questions:-

Q1. How is a coconut tree different from other trees?

Ans:- A coconut tree is different from other trees because it has no branches and its leaves are right at the top.

Q2. Why does Satish climb the coconut tree?

Ans:- Satish climbs the coconut tree to cut down the coconuts for the owner.

Q3. What does the owner of the coconut trees do?

Ans:- The owner of the trees counts the coconuts that Satish has cut down.

Q4. Why does Satish love his work?

Ans:- Satish loves his work because he can see the whole village from the top of the coconut trees.
