

## Multiplication – ( Part 3)

### Points to Remember –

1) Multiplication is Repeated Addition.

When 2 is repeatedly added 4 times , we see that  $2 + 2 + 2 + 2 = 8$

That's why Repeated addition is called multiplication .

We say 4 twos are 8 . we write this as  $4 \times 2 = 8$

2) X is symbol used for multiplication .

For example – 1)  $2 + 2 + 2 + 2 + 2 + 2 = 12$

$$6 \times 2 = 12$$

2)  $3 + 3 + 3 = 9$

$$3 \times 3 = 9$$

3) When we multiply any number by 0 we will get 0 as answer.

Eg.  $4 \times 0 = 0$

$$6 \times 0 = 0$$

4) When we multiply any number by 1 we will get the same number.

Eg-  $7 \times 1 = 7$

$$9 \times 1 = 9$$

5) The answer of multiplication is called product .

( write this points to remember in your note book )
