Kinds of Plants

Look on internet the next information and write 5 examples for each category-

<p>flowers</p> 	<p>trees</p> 	<p>house plant</p> 	<p>food</p> 

I. Choose words from the box. Fill in the blanks.

Tall,shrub, rose, climber,pumpkin, tall

1. Trees are _____ and _____ plants.
2. Money plant is a _____.
3. _____ is a shrub.
4. A _____ is a creeper.
5. Hibiscus is a _____.

II. Write T for true or F for false.

1. All the plants is of same size. _____
2. Water plants grow in water. _____
3. Herbs are very small and weak plants. _____
4. A Louts is a creeper. _____
5. Banyan is a tree. _____

III. Match the following:

Match the types of plants with their examples.

S.N.	Types of plants		Examples
1.	Tree	a.	
2.	Shrub	b.	
3.	Herb	c.	
4.	Climber	d.	
5.	Creeper	e.	

IV. Tick the correct answer:

1. Which one of this is stem?

A. Potato B. Radish C. Corn

2. Onion is a:

A. Stem B. Flower C. Root

3. Plants having weak stems which grow along the ground are called:

A. Creepers B. Climbers C. Tree

4. Mark the tree:

A. Marigold B. Coconut C. Coriander

5. Shrubs are:

A. Small plants with woody stem

B. Tall plants with strong and woody stem

C. Small plant with soft stem

V. Give one word:

1. What is hard and strong stem called?

2. Some plants have weak stem and cannot stand straight on their own. Such plants are called?

3. Water plants are also called?

4. Soft stem plant.

5. Which types of plants are smaller than trees?

VI. Draw any two types of plants.
