Worksheet 1 and 2

Civics chapter 2: Role of the Government in Health

A. Multiple Choice Questions:

1. (d) All of these
2. (d) All of these
3. (d) Education
4. (a) Government
5. (d) All of these

B. Fill in the Blanks:

1. Third
2. Adequate, undernourished
3. Doctor
4. Public, health centers
5. Our Constitution

Very Short Answer Type Questions:

1. Government
2. A private hospital is expensive
3. Health education (Awareness)
4. Public health care facilities and private health care facilities
5. Malaria, Common Cold

Short Answer Type Question:

1. Most doctors settle in urban areas because:
 - a. They earn more in urban areas rather than in rural areas.
 - b. There are more facilities in urban areas.
2. Proper health care facilities means the adequate number of health centers and hospitals, test laboratories, quick ambulance service etc. These services should be easily accessible to people.
3. Government hospitals are better:

The cost of treatment in government hospitals is very low in comparison to the bills of a private hospital. The government hospitals are funded entirely by the government and hence there are even free treatment facilities to poor families.
4. Diagnose and investigate health problems and health hazards in the community. Inform, educate, and empower people about health issues. Develop policies and plans that support individual and community health efforts.
