

# Transport

Look and learn.

car

ship

aeroplane

train

## TEACHER'S CORNER

Skills developed:

**Learning Objectives:** Vocabulary development, identifying vehicles  
**Activity:** Explain each mode of transport to the children. Read out the names.  
Encourage sight reading of the words.

# Road Transport

These vehicles travel on roads.

scooter

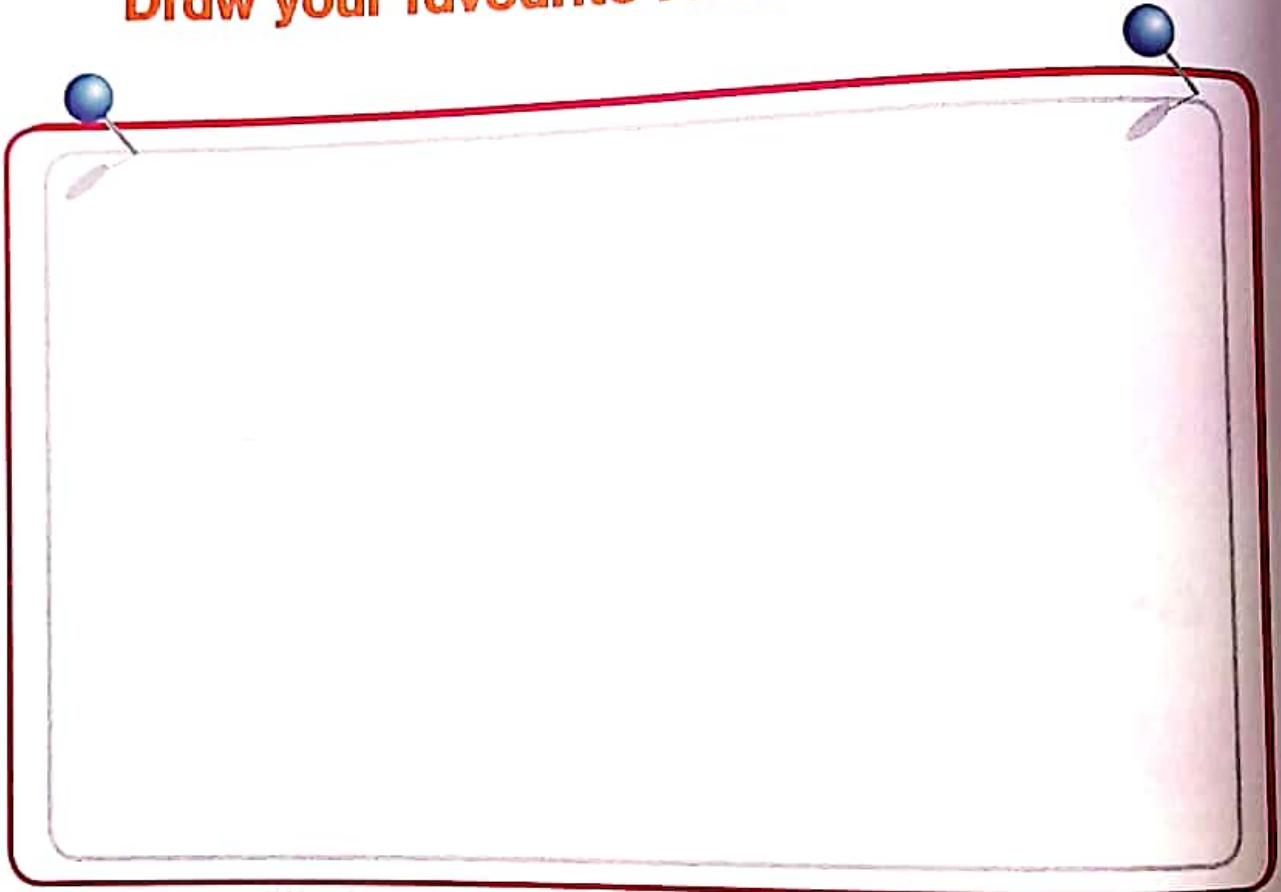

bike

car

Draw your favourite road vehicle here.

## TEACHER'S CORNER

Skills developed:

**Learning Objectives:** Identifying vehicles, hand-eye coordination  
**Activity:** Ask the children to name their favourite road vehicles. Draw a traffic scene on a sheet and ask the children to name the vehicles in it.

# Air Transport

These vehicles travel in air.

aeroplane

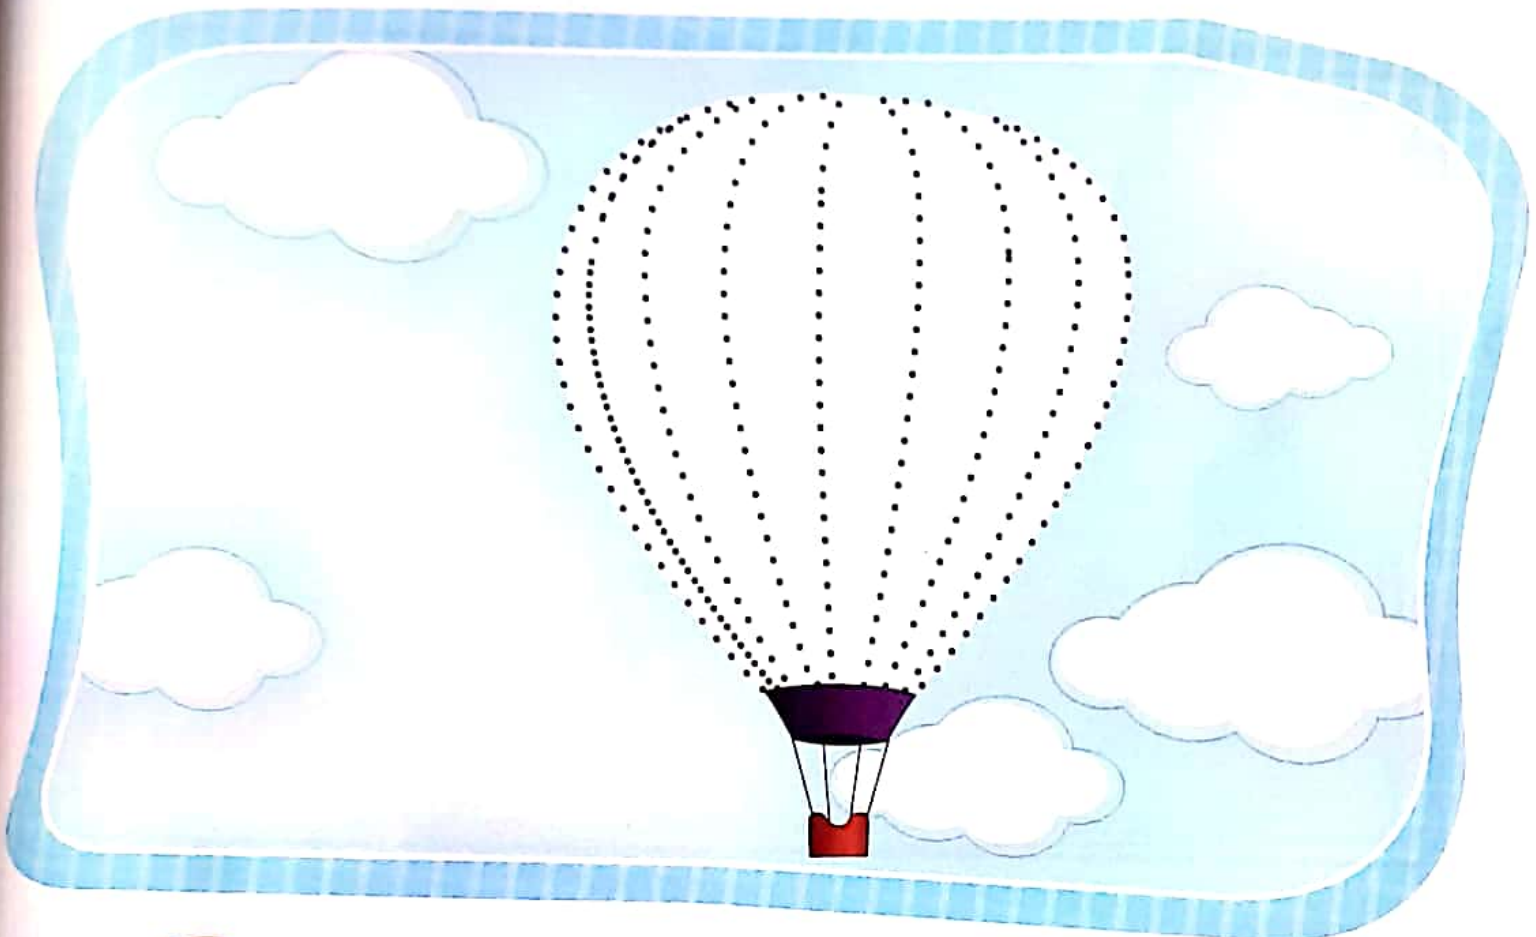

helicopter

hot air balloon

Join the dots and colour.

TEACHER'S CORNER

Skills developed:

Learning Objectives: Identifying vehicles, hand-eye coordination

Activity: Help the children to make a paper rocket.

# Rail Transport

These vehicles travel on rails.

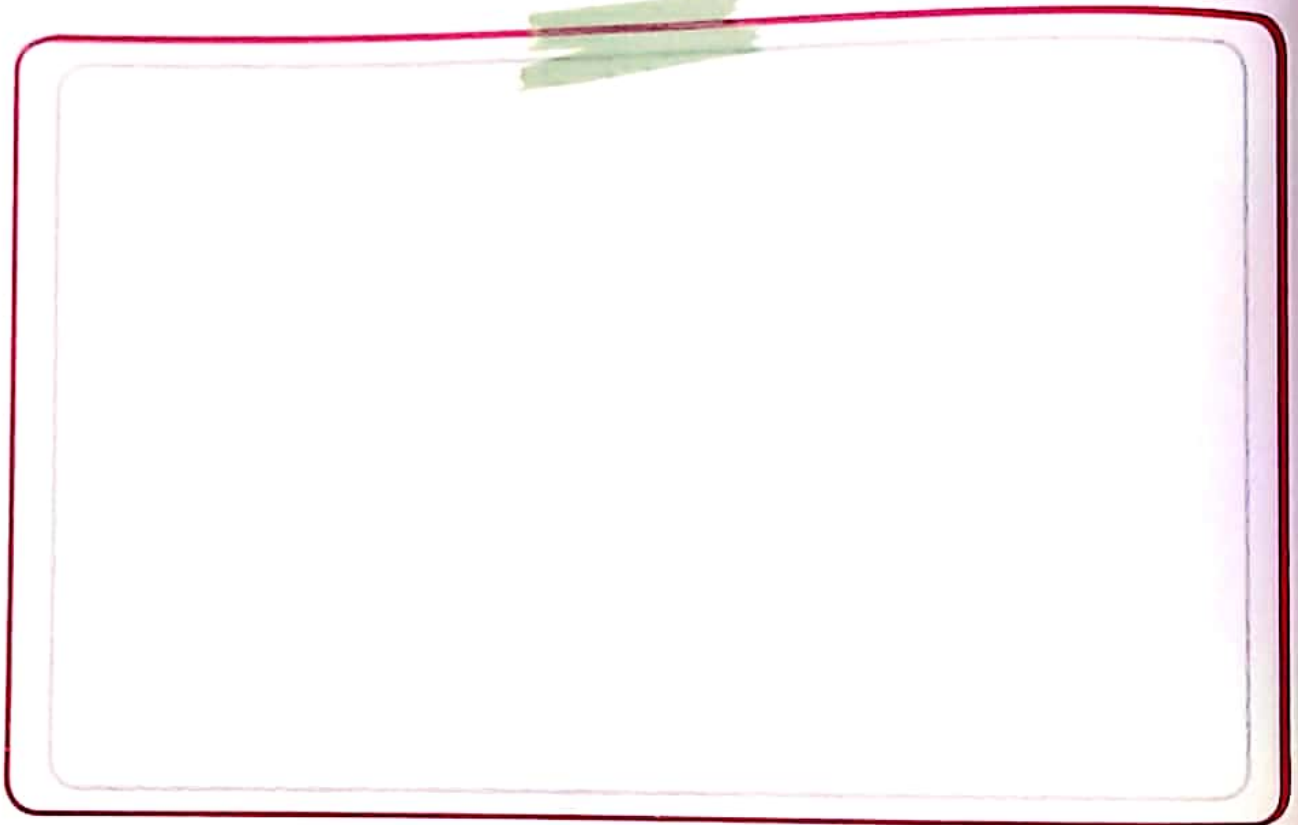

passenger train

goods train

Paste a picture of a train.

## TEACHER'S CORNER

Skills developed:

**Learning Objectives:** Identifying vehicles, hand-eye coordination  
**Activity:** Talk to the children about different types of trains such as Duronto, Rajdhani, and Shatabdi. Explain the difference between a goods train and a passenger train.

# Water Transport

These vehicles travel in water.

ship

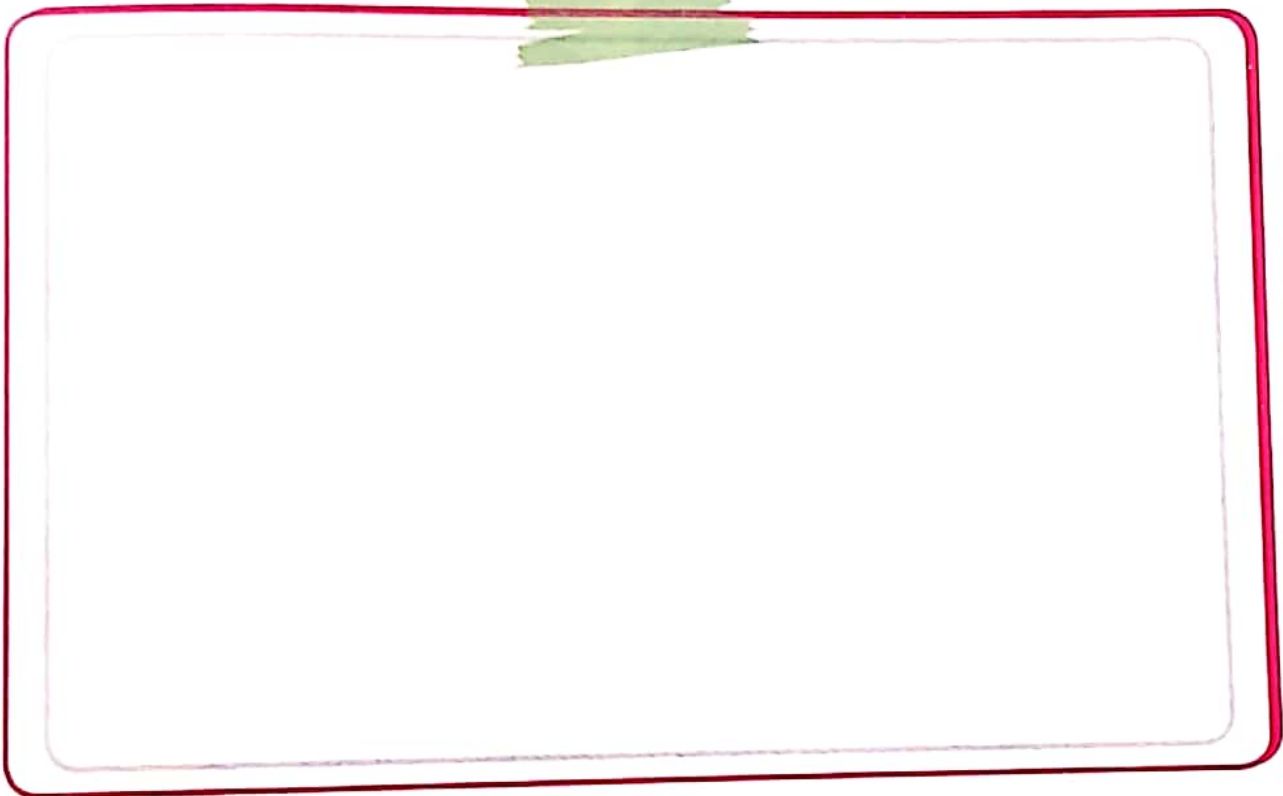

sailboat

yacht

Make a paper boat and stick it below.

TEACHER'S CORNER

Skills developed:

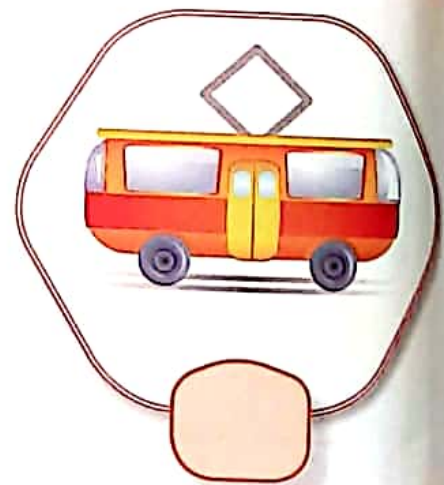

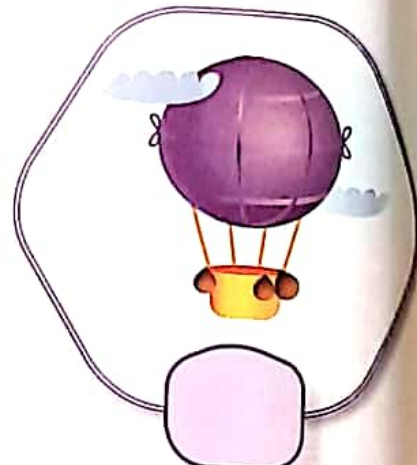

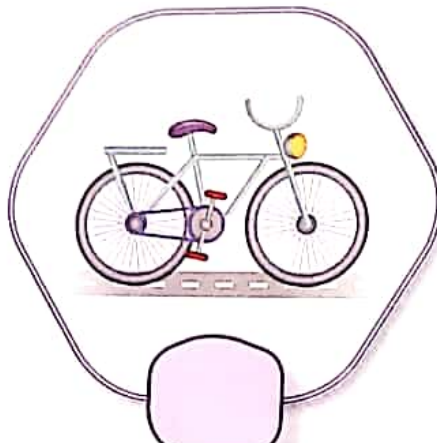

**Learning Objectives:** Identifying vehicles, hand-eye coordination

**Activity:** Help the children make paper boats and stick them in the box. Give them more examples of water transport.

# Means of Transport

Look and write.

## TEACHER'S CORNER

Skills developed:

**Learning Objectives:** Identifying the means of transport, hand-eye coordination  
**Activity:** Ask the children to write 'w' under the vehicles that travel in water, 'a' under the ones that travel by air and 'r' under the ones that travel by road or rail.
